50 % Individual Coursework

2025-26 Autumn

Student Name: Saugat Pradhan

London Met ID: 22068811

College ID: np01mm4a220160

Internal supervisor: Bijay Shrestha

External supervisor: Aarsha Maharjan

Assignment Due Date: May 18, 2026

Assignment Submission Date: May 20, 2026

Word Count: 6004

Project File Links:

YouTube Link:	Perfect Fitness Club
One Drive Link:	OneDrive
GitHub Link:	Github

I confirm that I understand my coursework needs to be submitted online via Google Classroom under the relevant module page before the deadline in order for my assignment to be accepted and marked. I am fully aware that late submissions will be treated as non-submission and a mark of zero will be awarded.

Abstract

This documentation consists of full summary of all the procedures implemented for the completion of the advertisement project of Perfect Fitness Club. It covers the aspects of introduction, topic, aim of the overall project, targeted audiences, product research, technologies deployed, pre-production, post-production, user testing and findings, references, bibliography and appendix as well.

This document will be acting as an explanation of all the procedures and techniques such as the writing script, making storyboard, filming, editing, compositing, rendering and as well as testing the product. The overall pattern for this project was solely made under the supervisor meetings and as well as carried out further from the third person evaluation as well and overall research was done and understood to reach the requirements of the advertisement project. At the end a survey was run through in order to gain the proper insights about the gym culture and an advertisement.

1 introduction

This coursework accounts for 50% of the total marks for the module Digital Media Project. For this coursework all individuals are assigned to accomplish the completion of their own project along with the detailed documentation of the entire project which includes research, concept, planning, aim and goals, technologies deployed, pre-production, post-production, user testing and findings with detailed evidence. In the first phase of the Digital media project every students were expected to find their client for the project they were about to carry out and as well as research was carried out thoroughly and by all means a gym advertisement was chosen by me named "Perfect Fitness Club" where the sole purpose of advertisement was to promote and improve the reach of the gym in its locality.

For this coursework all the details about the planning methods, concepts, production phases are all well crafted for the creation of the visually attractive advertisement for the gym. The main motive of this entire documentation is to provide an accurate information how the overall advertisement project was completed along the progress that were made along the journey of its completion.

This advertisement project mainly focuses on creating a connection between people and relating to them gradually leading them towards the gym. The project main core responsibility is to be able to create an energetic and well refined television commercial for the Perfect Fitness Club that grabs the attention of the viewer eventually encouraging them to start their fitness journey leading to a better lifestyle and health that becomes solely responsible for the longevity of an individual.

1.1 Topic

The Digital Media Project that I have chosen is about creating a television advertisement video for "Perfect Fitness Club" which focuses on showcasing the overall environment of the gym and majority shots depending on the people performing their workout regime. The core aim of this advertisement is to create a name for the gym through which audience can see "Perfect Fitness Club" as a brand reliable and dependable in starting or continuing their fitness journey as it performs its duty to motivate and encourage people to step out of their comfort zone and join the journey of improving their physical fitness leading to a healthy quality of life waiting ahead for them. At Perfect Fitness Club gym stands for more mental strength rather than physical strength as a proper disciplined person has always been reaching the new horizon of their fitness and here people are applauded for their vulnerability and initial hesitation towards stepping inside gym to which every member helps each other so that they don't feel like an outsider inside it leading them to believing in themselves and help them gain the confidence inside their body. During shooting process camera captures the workout area of the gym and majorly focuses on people helping one another and as well the hardship they go through their workout session later giving them a smile on their face for the progress they have made throughout their journey. With the help of art of storytelling and graphical animation people of different age group are encouraged to join the gym helping them become stronger in both mental and physical aspects as gym and workout session changes not only your

body but also trains your mind to become discipline and improve will power to be able to face the daily hardships of life much more effectively with a sense of pride within them when they see their reflection in mirror. Hence the objective of this gym advertisement project is to increase the reach of the Perfect Fitness Club, by creating a sense of togetherness for the audience and helping them start their fitness journey.

1.2 Area of research

The main core goal behind this research is to be to reach the requirement in creating a refined and professional advertisement for the Perfect Fitness Club by going deep into learning how every techniques, procedures, skill, knowledge are used together in achieving the client's expectation from the overall advertisement project and as well as to be able to present the aesthetically motivating and connecting with them emotionally making them realize the importance of exercises and making audience feel deeply moved to join the gym and ultimately helping them improve their overall fitness by taking small steps at a time without making them feel overwhelmed.

Before stepping into the production of an advertisement or a commercial a very important part is to carry out research in deeper level in order to gains some insights, information and as well as brutal facts about the client and the demand along side expectation they have set in their mind. Research acts as helping hand in understanding and knowing about the client and as well getting used to the audiences depending upon their likes and dislikes. Usually, this insight acts as a direction just like how a compass gives a direction towards the act of taking a decision with utmost precision before moving forward towards the project. In order to be able to achieve a lethal and effective and visually attractive commercial different knowledge about how camera angle works, effects of proper lightings and as well as how a proper audio can help uplift the quality of the advertisement alongside the manage of scenes which shouldn't be neglected as well.

1.2.1 Understanding our clients and ongoing trends in fitness.

For the study of the ongoing fitness trend the main reason behind this research was to able to understand Perfect Fitness Club and how it's been performing during this competitive gym culture as day-to-day new gyms are introduced and established consistently. In present modern lifestyle people don't often move much like they were designed to due to office work and as they spend most of their time being a sedentary person they eventually face health problems like posture problem back pains and eventually lose their mobility altogether and from deep analysis people aged from 16 to 40 years complete their workout session frequently and consistently and most of this people are work from home, students, sportsman etc.

The rapid growth of fitness industry in Nepal can be witnessed clearly since covid era and it's growing like never before and they have been fascinated from achieving a aesthetically pleasing looking body and most of them don't just wants to be fit but instead they want to standout in crowd and gyms has been selling this dreams to the entire individuals who steps into gym culture . For many people overtime gym becomes a place where they deal with their inner battles, daily life stress, and their second home. Due to

growing social media presence as well fitness industry has been able to achieve a new era where its popularity has gained a significant place in people's heart. Hence this research takes deep dive into gaining knowledge and deeply understanding the preferences of each specific audience alongside their needs and as well leading to the creation of encouraging advertisement which eventually helps them improve their level of fitness consistently and effectively.

1.2.2 Targeting Audiences

Gaining a brief understanding about the targeted audiences, clients or customers plays as an important aspect of creating an advertisement that stands out in crowd, and this research entirely focuses around understanding the people who are willing to signing up for a membership in Perfect Fitness Club. It remembers and observes the daily lifestyle of the people and their interest and as well as what are their expectations and their goals that they want to achieve and can work for. Daily gym clients will be observed about their progress and will be asked questions how their progress has been going on. The research also aims towards finding out what separates the Perfect Fitness Club and what makes it different from other available gyms present in the area.

1.2.3 Storytelling and Content in Commercial Video

This part of our research mainly leans towards how a commercial should be shown and delivered effectively. Stories are to be delivered precisely in such a way that aids and helps our audiences in understanding and gaining a brief context of message our advertisement is trying to articulate to them. Proper story telling helps audiences relate to the advertisement effectively motivating and inspiring them. Various fitness commercial shall be observed in detail in order to achieve and gain vision about visuals, lessons, ideas they are to be created.

Usually gym advertising should mainly focus on demonstrating and showcasing the overall atmosphere of the gym , trainer's devotion towards client and as well as about the facilities that are available within gym's reach and video are to be made simple and short rather than complex so that audiences don't get overwhelmed and enabling them to understand the video much more effectively. At last, the process how a story is presented towards the audiences plays a vital role in pulling the crowd into the gym.

1.3 Aim of the Project

The major objective of this project is to create a gym advertisement that helps promote the brand Perfect Fitness club effectively, by demonstrating the overall gym, services and facilities provided towards the members signing up for the gym.

The secondary goal is to be able to make people well aware about the gym effects and how it is important to maintain their fitness as they age and to take care of their health as time passes to make life easier and improve the quality of their day-to-day life.

The aim of this advertisement is to increase the reach of the brand Perfect Fitness Club in the market and to motivate the viewers to feel motivated to sign up for the gym.

The goal is to be able to present the gym as one of the thriving gyms available in the area and as well as to be able to use proper storytelling and visuals and letting audiences know that Perfect Fitness Club has been solely devoted to improving people's life and their overall mental health as well as gym not only trains your body it trains your mind too.

The objective of this project is to make a commercial simple and concise so that audience can understand the message being delivered to them via advertisement so that people's trust can be gained and maintained through years to come.

1.4 target Audience

Perfect Fitness Club is established in order to meet the people needs of lifting and cardio in a minimal budget by providing equipment weights and machines to train for variety of people. Information regarding targeted audience is listed down below:

Age: 16 – 40 years old

Gender: All gender

Profession: Any profession

Location: Suryamukhipark, Kathmandu

Perfect Fitness Club accepts and greets people who are willing to improve their health and fitness with utmost gratitude, and it is mainly open for all the people regardless of their gender, profession or even different ethnicity, the mainly clients are expected mainly from the age group from 16 to 40 years age. No discriminations are done and everyone are treated equally valued with utmost respect without making them feel like an outsider. The gym is located in Suryamukhipark, Kathmandu and has core members form the nearby area.

2 Product Research

2.1 Gym Shark Athlete

A fitness commercial based upon promoting Gymshark Athletes as well as the workout regimes alongside gym ambience showcases the potential of the Sony FX3 camera and shows how an athlete pushes themselves forward into surpassing themselves in day-to-day gym sessions. Video shows a glimpse of a very rigorous workout sessions and Perfect Fitness Club can imitate the same intensity that people who really determined to push through their limits can be attracted into building a physique majority aspires to have.

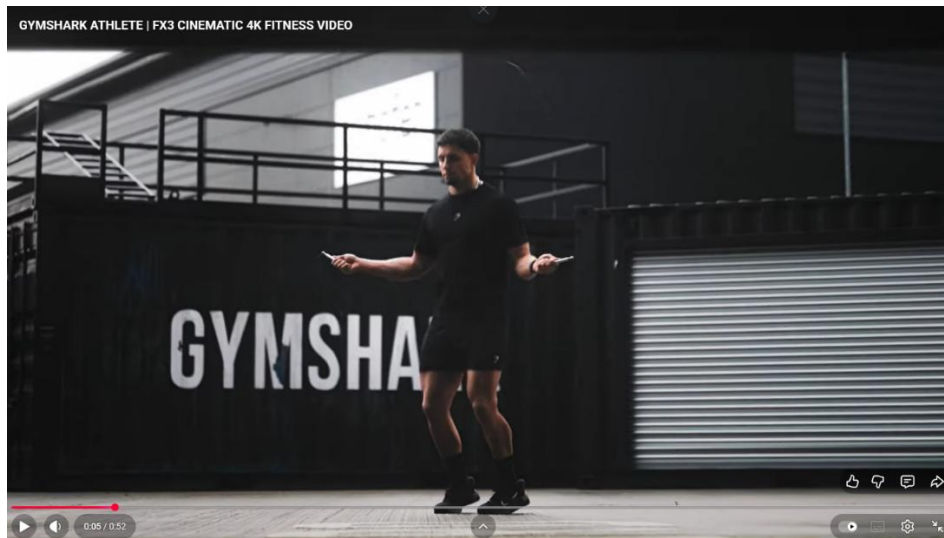

Figure 1 Research 1

https://youtu.be/aM0Swf-zsw0?si=7WBYQBWOXjZ_zPRB

2.2 Gym commercial

This commercial has mainly focused on closeup shots of the equipment and machines available inside the gym. The commercial is mainly focused upon showcasing and ambience and atmosphere of the gym creating a feeling of gym being someplace where an individual achieves their true potential with the help of precise lighting setup, camera angle and as well as sound design. The cinematic closeup shots aid in helping achieve the gym equipment look much more premium and refined.

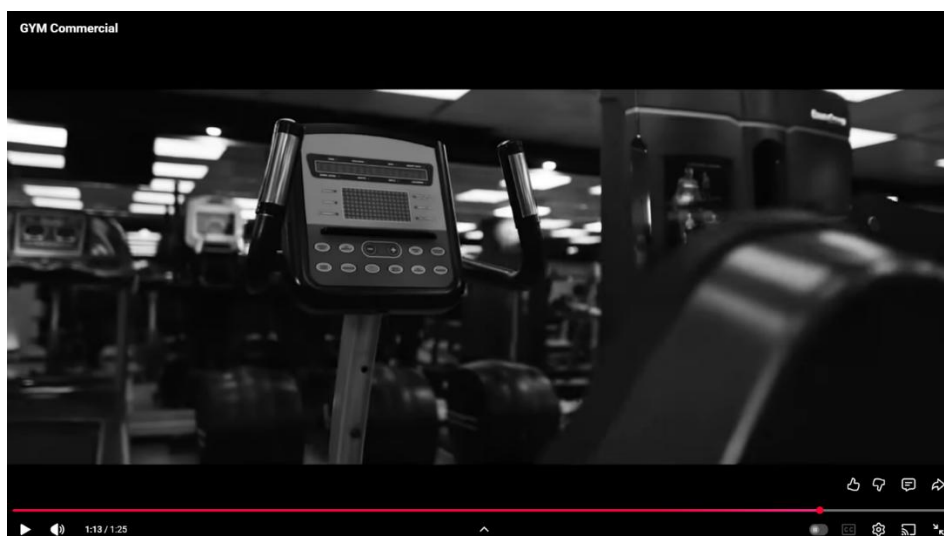

Figure 2 Research 2

<https://youtu.be/wkTFd3QZSP0?si=EN-lmEdzIAfmOdWg>

2.3 Ignite Gym

This commercial is created entirely by the production company named synergy films and here each and every corner of the gym is explored in utmost detail. Facilities available within the gym along with the services present within it are being demonstrated. Opera music used for the commercial has given the gym a classy and unique identity of its own and as well as the transition that took place on sync with the music provided idea of how transition at the right timing made the video enhance its overall quality.

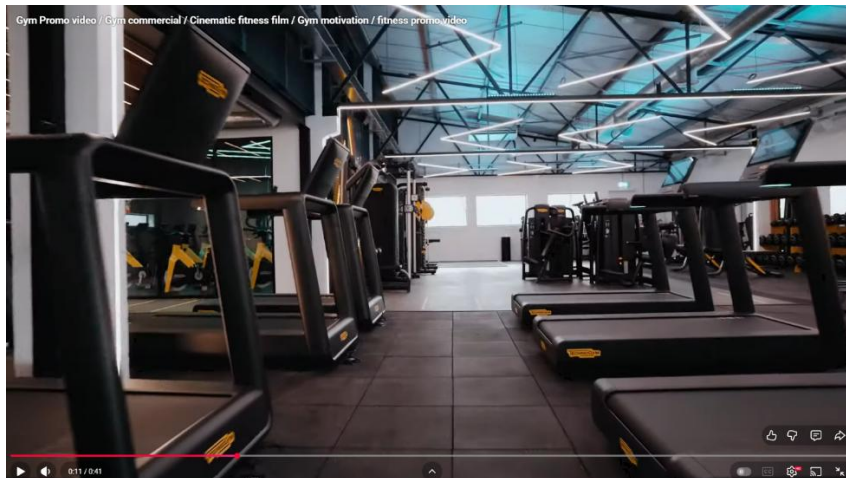

Figure 3 Research 3

<https://youtu.be/UrZITz8NMr0?si=uUAA3XR64D4XKOy0>

2.4 Sony A7S Fitness Commercial

This commercial solely showcases the preparation of an athlete regarding how he makes himself ready and doesn't wait for the perfect time to start and gets on with his workout regime pushing through every exercises with sheer willpower and effort and hence Perfect Fitness Club can share a message that there's never a perfect time to start and that an individual makes the time perfect.

Figure 4 Research 4

<https://youtu.be/W7NFOcFXAXU?si=pThBZRZaTgxR38gg>

2.5 Audio Research

Audio plays a major part in making a video sound energetic and intense and when audio matches with the intensity of the video the overall advertisement becomes much more refined as well as professional at the same time. For Perfect Fitness Club the audio will be energetic with full of intensity present in it as it sends the message quality is better than quantity and the right audio will always be impactful for the audience leading to much higher immersion towards the commercial. Copyright free audio was extracted from the YouTube.

3. Technologies Employed

3.1 Adobe Illustrator

Adobe Illustrator is one of the powerful software when it comes to create vector-based art and is readily available for the windows and macOS often used for the creating drawing, illustrations and it was introduced in 1987 and overtime many features and optimizations has been introduced within it and is also a part of a Adobe Creative Cloud Suit. (Wikipedia, 2026)

Figure 6 Adobe Illustrator

3.2 Adobe Photoshop

Adobe Photoshop is often the go to software used mainly for editing and manipulating images, graphical designs as well as widely used for storyboarding as well. It was introduced in 1988 and often favours the pixel, raster and as well as vector-based assets making it quite versatile compared to competitors. (Wikipedia, 2026)

Figure 7 Adobe Photoshop

3.3 Adobe After Effects

Adobe After Effects is a software mainly used for motion graphics, logo animations and also acts as a 2.5D animation software and it consists of various effects for manipulation of the video and images with the help of various layers and this software often becomes a handy tool during postproduction phases. (wikipedia, 2026)

Figure 8 Adobe After Effects

3.4 Adobe Premiere Pro

Adobe Premiere Pro is a industry level video editing software which allows users to compile, manipulate footages and as well as helps enhancing them too. It has many built in effects like De-noise, sharpen and unsharp mask, lumetri colours, scale, rotation many more and even can create keyframes within these effects. It is one of the most used video editing software as well. (wikipedia, 2026)

6 Pre-Production

6.1 Concept

Figure 12 Logo Design

The advertisement concept for the Perfect Fitness Club simply begins initially with a logo animation and the empty area where weights are available inside the gym is shown and as well as some close-up shots of the equipment of the gym and after that a scene where people working out with different exercises alongside the trainer will be shown as well. The main objective of this commercial is to showcase the audience regarding the differences perfect fitness club makes when compared to other gym and how it stands with you throughout the fitness journey. The advertisement will be containing a lot workout session glimpse showing a true intensity throughout and the goal of this advertisement is to be able to connect with the people and audiences and make them relate to it and eventually making them feel motivated and encouraged to start their very own fitness journey and as well as a form of awareness for looking after their health for themselves and for their loved ones . The concept is the initial phase of the pre-production and as well as gives an idea about direction before producing an advertisement.

6.2 Script

INT. LOGO ANIMATION

The logo 'The Perfect Fitness Club' will be shown as an intro for around 3 - 6 seconds.

INT. INDOOR - EVENING

Cinematic view of every equipment inside the gym is shown and as well cardio machines along with **weightlifting** machines.

INT. INDOOR - EVENING

A person putting on plates on the bar will be shown.

INT. INDOOR - EVENING

A person grabbing dumbbell from dumbbell rack will be shown.

INT. INDOOR - EVENING

A person performing heavy dumbbell curl is shown.

INT. INDOOR - EVENING

A person performing a lats pull down is shown.

INT. INDOOR - EVENING

A person doing an incline chest press is shown.

INT. INDOOR - EVENING

A person performing cardio session will be shown.

7 Production

The production phase can be defined as a stage where the actual production process starts for the Perfect Fitness Club and in this phase every initially planned ideas, scripts as well as shots were all put together and for the camera Samsung S24 was used as the main camera to capture each and every scenes, activities inside the gym, and as well as shots that promotes the overall ambience of the gym. A tripod was also used so to keep the camera stable through the recording process and attention to detail was given to the camera angles, natural lights, movement of the person inside the frame and as well as clear recording was ensured to make the recording appear much more refined and professional leading to the more immersion from the audiences.

7.1 Logo animation

The logo animation of Perfect Fitness Club was entirely made in Adobe After Effects using a 3D motion graphic which combines all the elements like a virtual camera, lights, opacity and as well as a shadow was duplicated within the composition to give a sense of depth and also without having to make a 3D models in modelling software. Looking at the screenshot below it can be seen that logo animation was made or created around multiple compositions making Comp 1 as the primary composition and similarly another composition for the shadow was named intentionally as shadow for a better workflow throughout the animation process. The logo of the Perfect Fitness Club was initially made in the adobe illustrator to which was then exported as an image and was later got imported as transparent PNG file into the After effects. The layers named “Logo White” and the shadow both of these layers have 3D cube enabled within them which allow the user to know that they are in 3D space in the software instead of regular 2D layer. Initially camera was added to the first scene in order to achieve the cinematic movement and in the timeline that camera’s position was properly keyframed according to the need through Z axis resulting for the logo to give a dynamic feel within the animation.

In terms of lighting a parallel light was added instead of a point light so that a sunlight can be simulated as the rays coming from directional lights are consistent just like the sun rays which suits the light animation drastically improving the visuals of the animation. The layer named logo white has its option material enabled so that it takes the lights and shadow helping them interact with each other and the layer named shadow has its opacity percentage keyframed that as well is from 0 percent to 35 percent which tells that the shadow fades during the intro of the animation. The shadows being diagonally long and visible in the preview windows provides an insight that angle of the light was placed according to the plan giving off a premium vibe for the logo especially made for the Perfect Fitness Club.

The whole animation is solely dependent upon the keyframes set for the positioning of the camera, opacity and as well as the direction light being placed right at the right place. Initially the logo is hidden and then keyframe was set in such a way that the entire logo and as well as light compliments each other before the whole logo becomes visible. Easy ease was used for the smooth animation. Compositions were arranged and maintained according to the animation plan and as well as hierarchical pattern was followed so that the animation doesn’t get messed up during its creation due to which the whole process of keyframing and animating the becomes much clearer and more concise.

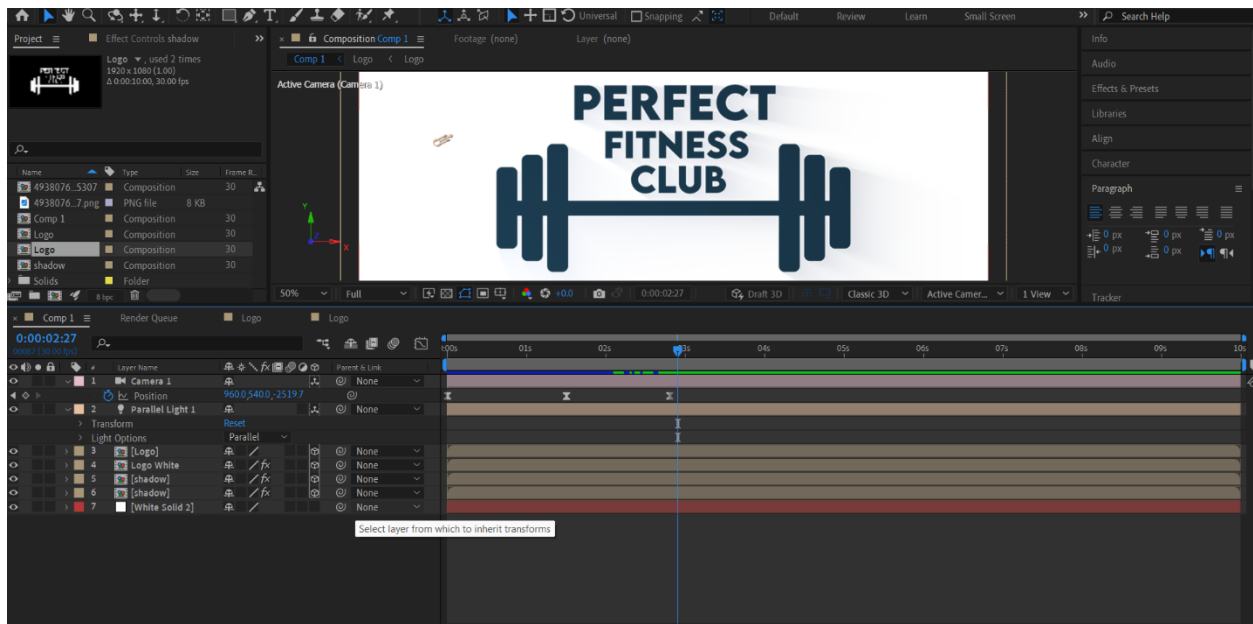

Figure 21 compositing

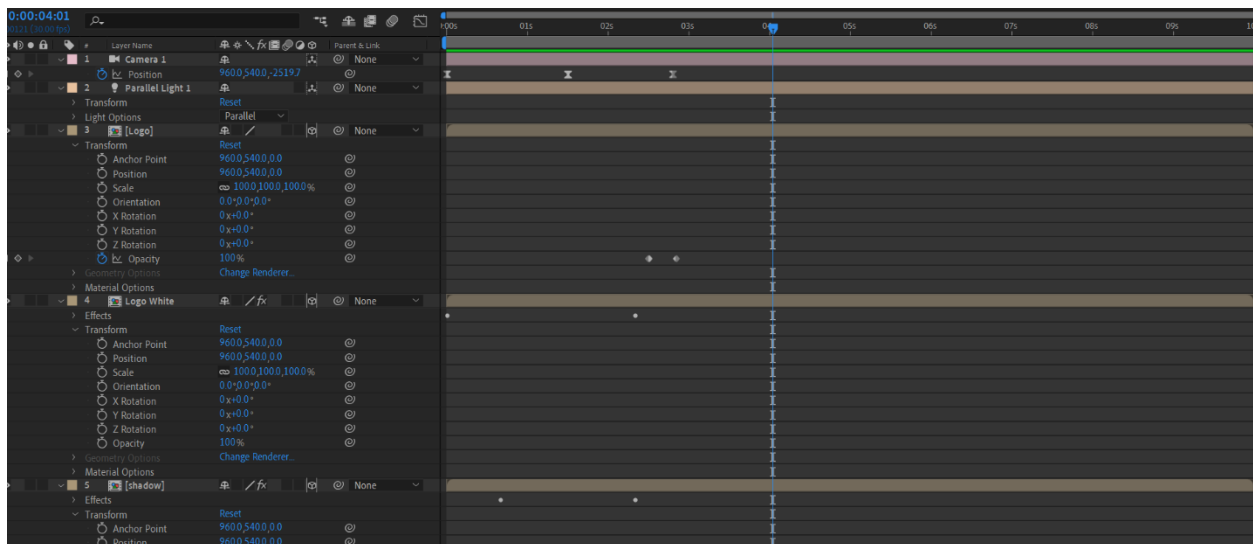

Figure 22 keyframes screen shot 1

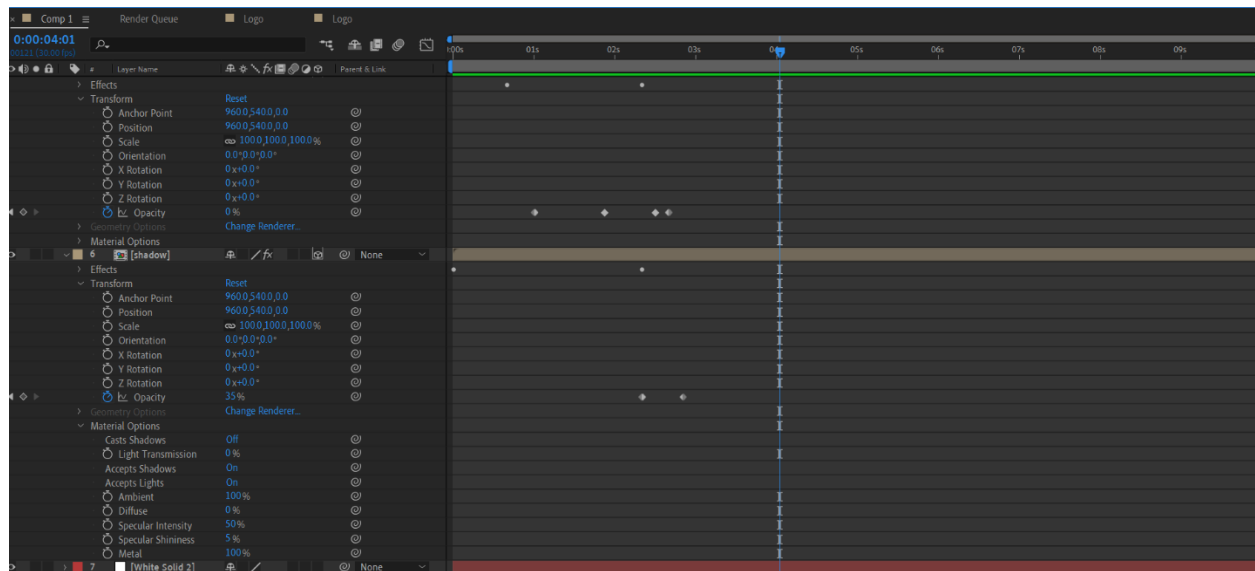

Figure 23 Key frames screen shot 2

7.2 Editing Video and Audio

The whole advertisement made for the Perfect Fitness Club was edited entirely in Adobe Premiere Pro and this project features numbers of gym clips in it. In the screenshot down below wide angle shot of the gym is shown that includes all the gym equipment, benches and as well as proper use of natural lighting was used to achieve that yellowish hue as well the entire video clip was placed on the track V1 in the timeline for making the editing process simple and within it gym music which we picked before is placed down below. Some of the key frames was set in order to animate the camera movement within the premiere pro and when they were scaled a bit much then their original size noise became more and more significant which was tackled using “De-noise” effects to the clips which got exposed to noise and lumetri colour effect was used to manipulate the temp and hue in order to achieve the yellowish vibe to the gym similar to the colour of the golden hour of the sun. Lumetri colour helped in achieving the expected colour throughout the clip by adjusting the highlights, shadow, exposure, contrast, blacks and whites and this has helped tremendously in making a whole lot of correction creating by the inconsistent natural lighting. Timeline shown in the picture down below show many cuts and adjustment in order to sync it with the music which gets played behind making an overall advertisement much more immersive and as well as attention grabbing.

Majority of the shots and clips used for the commercial are entirely based upon the clients performing their workout regime and they were recorded by taking their consent as well as to make everyone around feel comfortable. The workout session recorded focuses on weights being lifted helping in creating a motivational advertisement and scale was used in some of the slip to make them seem much more intense and grindy and as well as the keyframes set for this scale were also used make the advertisement a bit more cinematic. Lighting effects were also used for the cardio session as the interior was quite dark compared to the weightlifting area which help us achieve a better lighting for overall

commercial project. For the ending scene a brief detail regarding the contacts of the Perfect Fitness Club was shown here opacity was keyframed and video was used as background while blurring it using a Gaussian Blue effect and for the audio to be faded out smoothly exponential fade was used for the audio.

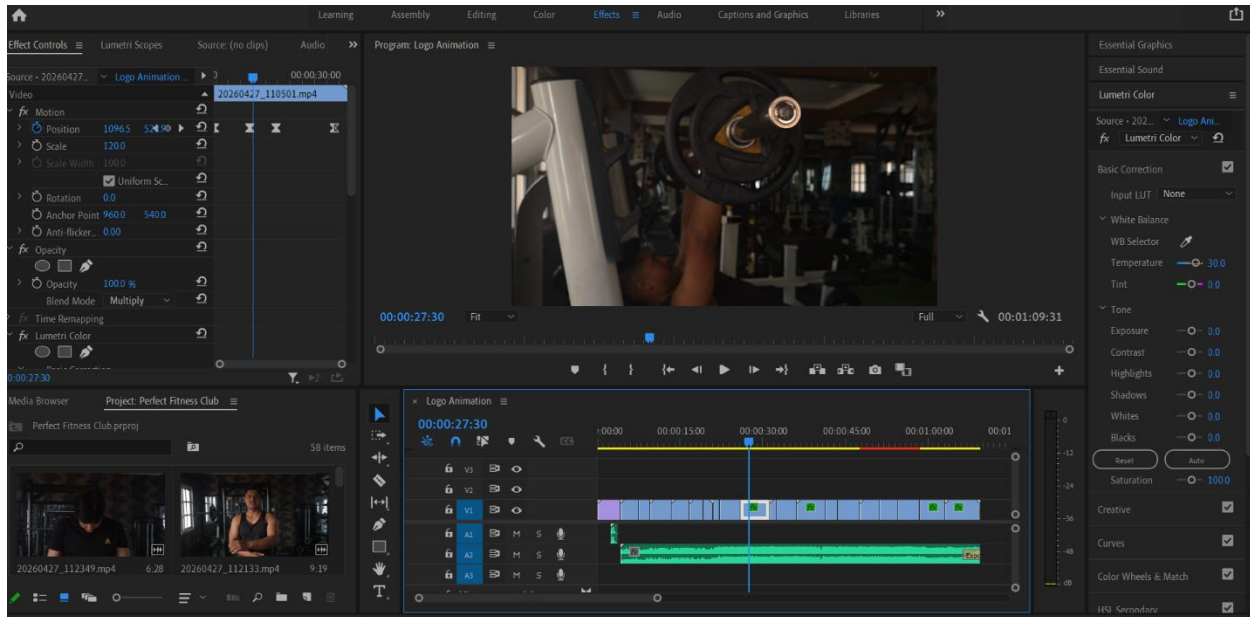

Figure 24 Compositing 1

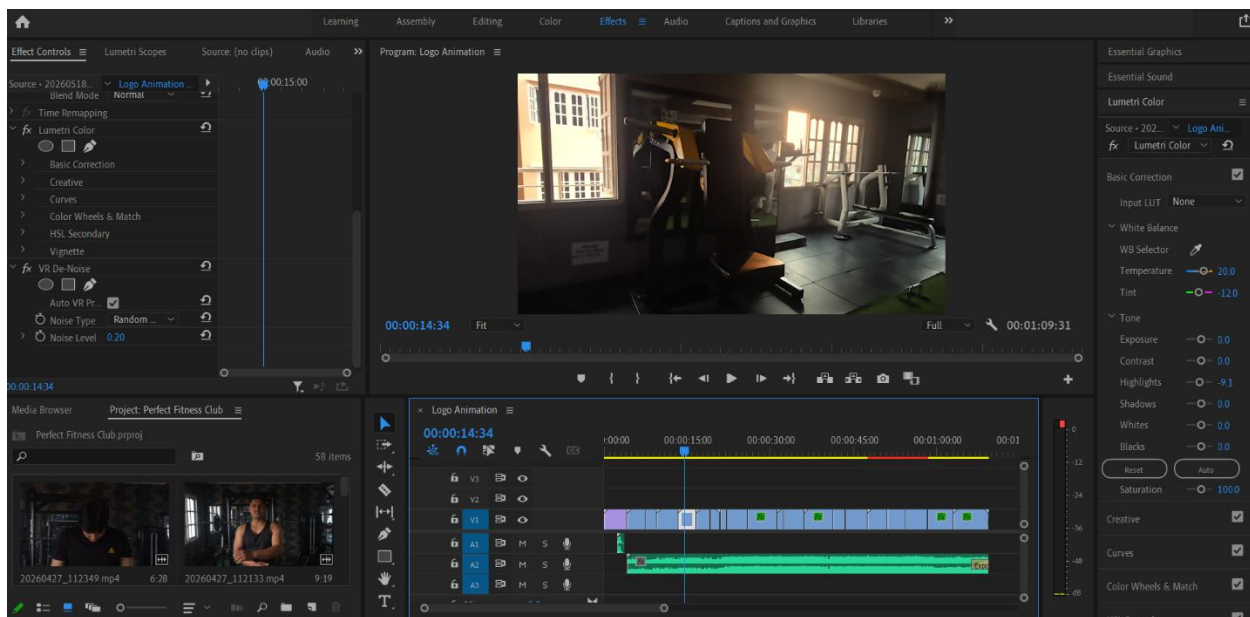

Figure 25 Compositing 2

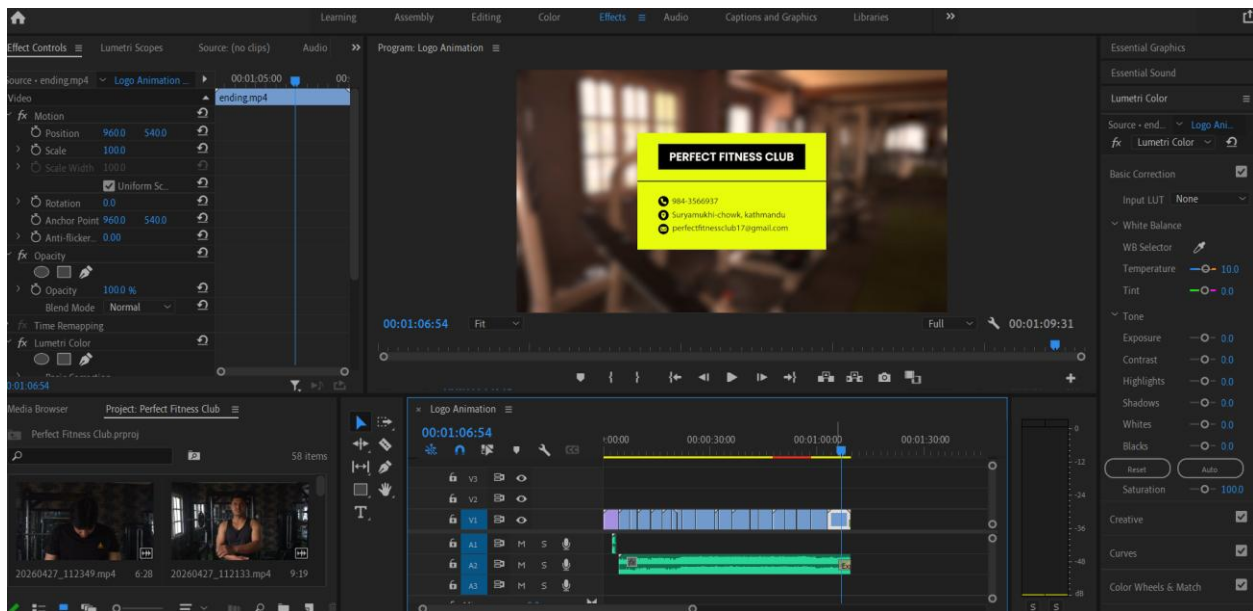

Figure 26 Compositing 3

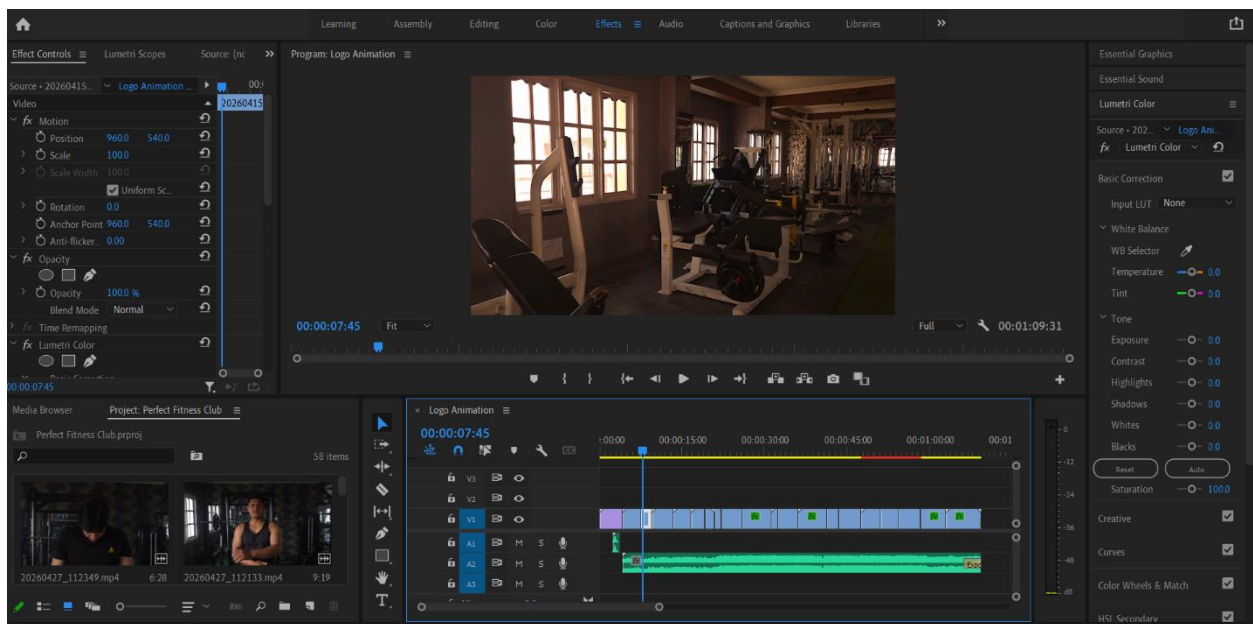

Figure 27 Compositing 4

7.3 Rendering

After the completion of all the editing work, the rendering was initiated where the export setting was set to H.264 as it one of format with highest compatibility in 1080p format, Rendering was done at maximum depth option enabled whereas VBR pass 1 along side hardware encoding was used as well.

9 User Testing and Finding

9.1 Finding

The primary goal of this project is to product a television advertisement commercial for Perfect Fitness Club so that the gym can increase its reach and visibility and as well be able to gain trust of the people and connect with them in an emotional level and motivating them into joining the gym and start their fitness journey.

The overall findings gathered from the user testing helped us in understanding the effectiveness of the advertisement project. Majority of the feedback received through survey were positive and assuring and as well as showed a huge impact that the commercial has successfully motivated the audiences. Testing also helped us find out the workout shots and as well close up shots helped the viewers immensely in making them feel belonged in the gym and they got assured that Perfect Fitness Club was not all about building physical fitness but also mental strength altogether like two sides of the coin.

Hence by the help of user testing, critical feedback and insights were achieved as well as showcased the pros and cons of the commercial as well. Therefore, the finding showed us that precise planning, selection of an audio alongside the art of storytelling can make an advertisement much more engaging and immersive.

9.2 Testing

After the advertisement project made for the Perfect Fitness Club was completed, a testing procedure was carried out to get some ideas about the reaction received from the audiences. Testing was entirely focused on gaining critical feedback with brutal honesty about the visual aesthetic, camera shots being used, music selection, and overall atmosphere of the gym. According to the survey 100% of the participants agreed that they have seen the advertisement for Perfect Fitness Club. Hence post project survey was also carried out to witness the actual percentage of the different feedback received by each individual.

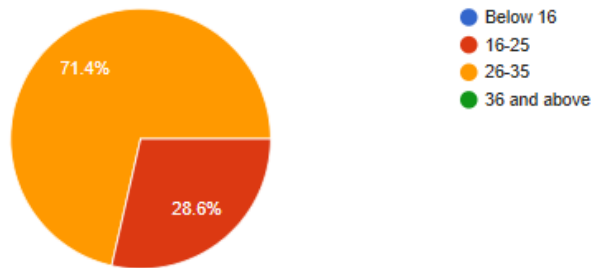

9.3 Survey

Altogether when the participants were asked about the camera shots and the visuals which were used in the project all the participants responded with utmost positivity. This clearly gave us a sign that the camera angles, editing showcased throughout the project made commercial appear more refined.

9.4 Overall Insights

Every feedback from the audiences has been able to show that the advertisement project for the Perfect Fitness Club was quite successful in gaining viewers and as well as providing insights about healthy life style and most people liked the overall quality of the video and gave a note that the advertisement looked exciting and has ignited curiosity among them regarding the experience one gets in the gym. Elements like camera shots, editing skills and as well recorded gym clips has helped the commercial immensely into showcasing it as Perfect Fitness Club as one of the thriving gyms of its area. Workout sessions and as well as closeup shots of gym equipment has helped gym look much more engaging.

The background music used in the commercial has helped in matching the intensity of the workouts alongside the workout scenes and made it much more inspiring and testing which were carried out also showed that people were able to relate to the commercial and has made them take their decision into signing up for the gym.

10 Conclusion

In conclusion, this coursework of Digital Media Project has helped me create a full-fledged advertisement for the Perfect Fitness Club by going through different stages i.e. concept, research, planning, pre-production, post-production, editing, surveys and as well as user testing and findings.

During an entire project, various research was carried out so as to understand how gym commercials are made and what are the aspects that pulls audience towards it. This research has aided me immensely when it comes to planning the commercial effectively and precisely. Various software like Adobe After Effects, Adobe Premiere Pro, Adobe Illustrator, Adobe photoshop were brought into action during the whole process of manipulating the recorded video.

Production process has helped tremendously by improving my skill and techniques towards handling a camera, selecting an appropriate music, and as well as modulating colours. The overall usage of energetic background music has alongside the right timing of a transition has helped creating an energetic and inspiring gym advertisement.

With respect to the feedback which were gained through the survey articulated an information that audiences thoroughly enjoyed praised the commercial and many existing gym members liked the idea of them being featured into the commercial which made the recording sessions much easier and more enjoyable.

Altogether, this project has provided me a precious knowledge and learning experience when it came to gaining some insights into producing a full-fledged gym advertisement. Hence the advertisement that got created for the Perfect Fitness Club has performed significantly well in making audience feel motivated and making them aware about healthy lifestyle.

At last, but not least I would like to show my utmost respect and gratitude towards my internal supervisor Mr. Bijay Shrestha and external supervisor Ms. Aarsha Maharjan for providing me immense support through the project and for being patience with me throughout the entire learning progress.

Proposal Letter

Islington college
(इस्लिंग्टन कलेज)

December 25, 2025

To,
Perfect Fitness Club,
Suryamukhi Park, Kathmandu.

TO WHOM IT MAY CONCERN

I am writing this letter on behalf of **Mr. Saugat Pradhan**. He is currently pursuing his final year of **BSc (Hons) Multimedia Technologies** at Islington College and is doing research for his project of **Digital Media Project** module. For the same, he will be creating a commercial video for a gym is to be made promoting gym and its overall facilities.

I would like to humbly request you to assist him by providing the required permissions which will help him complete his project. Please assure him of his rights, permissions and approvals. I assure you that the information collected for the project will be used for academic purposes only and will be kept confidential. If the information is to be used in public capacity, we will first seek your approval.

If you have any inquiries regarding this matter, please do not hesitate to contact me via email at tara.subedi@islingtoncollege.edu.np.

Thank You.

To
Mr. Rabin Koju
Perfect Fitness Club
Suryamukhi Park, Pepsicola

Subject: Permission for gym video project.

Respected Sir,

My name is Saugat Pradhan and I hope you are doing well and currently I have been working on my final year Digital Media Project and I would like to kindly request your permission to take a step forward in creating a commercial video for Perfect Fitness Club as a main part of this project.

The main goal and vision behind this project is to showcase the overall gym's facilities, environment, and overall experience of the gym. The video will mainly be focused on demonstrating a motivating environment of the gym as well its training ground and how a better fitness helps in achieving a better quality of life quality. It shall include gym's equipment, facilities, services and as well as interactions between members of the gym.

The video will be made only for the promotion of Perfect Fitness Club related to my final year project and will be shared on digital platforms such as You-tube and as well as social medias.

By approving, Perfect Fitness Club allows the usage of all the video footage and all the photos taken during the production of the commercial. The content will be shared on online platforms and each and every materials and assets shall be used respectfully and only exclusive to this project.

Yours Sincerely

Saugat Pradhan
